機械科技打造精湛工藝

"Building Craftsmanship Through Mechanical Technology."

自 1988 年，上鎧鋼鐵致力於提供卓越的金屬擴張網。我們符合國際標準化組織 ISO 9001：2015 品質管理系統標準，因為每一個環節都達到自我的嚴格標準。

如今，上鎧鋼鐵加倍重視服務與數據，為了提高整體競爭力，從 2017 年全面更新工廠自動化機器設備與工廠電腦化管理，自工業 2.0 邁向工業 4.0，與歐美技術並駕齊驅。透過跨國／跨界思維，積極開發高附加價值與高端差異性產品，不斷嘗試創新與研發，致力於帶給客戶絕佳體驗。

在每次密切的合作關係裡，我們的技術總能不斷突破，與之創新。現在，您可以發現上鎧鋼鐵的產品為全球信任，「信任」一直是上鎧鋼鐵的最重要的品牌價值。我們擁有豐富的經驗及完善的生產設備，致力於提供客戶高品質、高價值之產品，以高標準滿足客戶之需求！

上鎧鋼鐵 SHANG KAI STEEL

Since 1988, Shang Kai Steel has been dedicated to providing superior Expanded Metal meshes. We conform to the ISO 9001:2015 Quality Management System standards set by the International Organization for Standardization because every stage of our production meets our own strict standards.

Nowadays, Shang Kai Steel places a greater emphasis on service and data in order to improve overall competitiveness. In 2017, we fully updated our factory's automation equipment and computerized management, moving from Industry 2.0 to Industry 4.0. Through cross-national and cross-industry thinking, we actively develop high-value-added and high-end differentiated products, constantly trying to innovate and research, committed to providing customers with an excellent experience.

In every cooperation relationship, our technology always continues to break through and innovate. Now, you can find Shang Kai Steel's products to be globally trusted. "Trust" has always been the most important brand value for us. At Shang Kai Steel, we use state-of-the-art machinery and technology to create products of exceptional craftsmanship. Our advanced equipment and skilled technicians allow us to consistently deliver high-quality products that meet the high standard of our customers!

1988

上鎧鋼鐵股份有限公司成立，專業製造金屬擴張網。

Shang kai Steel Co., Ltd. was founded in 1988 as an expert in manufacturing expanded metal.

1995

通過 ISO 9001 : 1994 ，奠定上鎧鋼鐵品質管理基石，邁向全球市場。

In 1995, Passed ISO 9001 : 1994 , which laid the cornerstone of Shang kai Steel quality management and enter the globa market

1998

評估企業長期發展與市場趨勢，遷入大發工業區，啟用新工廠，建置台灣新廠區並廠辦合一，提供客戶最專業品質服務。

In 1998, after evaluating the company's long-term development and market trends, Shang kai Steel moved into the Dafa Industrial Zone, opened a new factory, and built factory-office integration to provide customers with the most professional quality of services.

1999

2000

改版 ISO 9001:2000 並續證成功。建置桃園物流中心，即時供貨給台灣苗栗以北的廠商，提供即時服務，讓北灣台客戶免於長途奔波運輸影響。

In 2000, the revised ISO 9001:2000 certificate was successfully renewed. Shang kai Steel set up a Taoyuan logistics center to provide immediate supply to manufacturers in the North of Miaoli, Taiwan, and provide instant services, so that customers in northern Taiwan are not affected by long-distance transportation.

2009

改版最新 ISO 9001:2008 並續證成功。

The latest ISO 9001:2008 was revised in 2009 and the certificate was renewed successfully.

上鎧鋼鐵 SHANG KAI STEEL

公司歷史

Company History

導入 5S 全面提升完善服務品質，效法日本企業一絲不苟的工作精神與環境，提升工廠生產效率與製造品質。

In 1999, 5S was introduced to comprehensively improve customer service quality, following the examples of the meticulous work spirit and environment of Japanese enterprises, and improving factory production efficiency and manufacturing quality.

2015

改版最新 ISO 9001:2015 並續證成功。開始產學合作研發外牆用金屬擴張網的特性與產品優勢。

In 2015, the latest ISO 9001:2015 certificate was renewed successfully. Shang kai Steel started industry-academia collaboration to develop the unique characteristics and product advantages of metal expanded lathes for exterior walls.

2014

發表新企業識別形象，導入 CIS 企業識別系統，邁向下一個 30 年。

In 2014, Shang kai Steel released a new corporate identity by introducing the Corporate Identity System and moved Shang kai Steel towards the next 30 years.

2017

榮獲第 27 屆國家磐石獎。

In 2017, Shang kai Steel received 27th National Award of Outstanding SMEs.

2018

獲得綠建築新型技術認定證書。榮獲「高雄市地方產業創新研發推動計畫」創新研發獎並展示創新研發成果。

In 2018, Shang kai Steel received the green building new technology certification. Won Innovative R&D Award by Kaohsiung Small Business Innovation Research and displayed innovative R&D achievements.

2019

榮獲第 5 屆潛力中堅企業。
榮獲高雄典範企業領航獎。

In 2019, Shang kai Steel received “5th Taiwan Mittelstand Award” and “Kaohsiung Role Model Pioneers Award” .

2022

通過 ISO 14064 系列溫室氣體盤查驗證標準，上鎧鋼鐵對於建立零碳排管理機制已達成共識。
獲得金屬擴張網吸音天花板綠建材標章證書
獲得低碳工法標章證書 / 獲得低碳工法認證

In 2022, Shang kai Steel passed the ISO 14064 series of greenhouse gas inspection and verification standards, and reached a consensus on the establishment of a zero carbon emission management mechanism.

- Obtained the green building materials certificate for sound-absorbing expanded metal mesh ceiling.
- Obtained LCBA low-carbon construction certificate.

公司簡介
Company Profile

上鎧鋼鐵股份有限公司是由**董事長林宗志先生**創立，專門從事金屬擴張網製造。公司經營理念是「誠信、品質」。我們擁有多種設備和技術，可製造板厚範圍從 0.05mm-8.0mm，不限於任何金屬材質。我們可生產各國標準擴張網，並持有 ISO 9001 品質管理系統，並有特訂品質保證制度。在台灣高端產品市場中占有率超過八成，並銷售至世界各地。

Shang Kai Steel Co., Ltd. was founded by Chairman Chung-Chih Lin and specializes in the manufacturing of expanded metal mesh. The company's business philosophy is "integrity and quality". We have a variety of equipment and technology, and can produce sheets with thicknesses ranging from 0.05mm-8.0mm, not limited to any metal material. We can produce various national standard expanded metal meshes and have an ISO 9001 quality management system and a special quality assurance system. We have a market share of more than 80% in Taiwan's high-end product market and sell our expanded metal mesh products to customers worldwide.

上鎧鋼鐵在 1998 年開始轉型，從 OEM 和 ODM 代工轉為 OBM，以滿足客戶日益變化的需求。近年來，公司重視服務和數據分析，積極推動工廠自動化和電腦化管理，從工業 2.0 轉型為工業 4.0，開發出具有高附加價值和高端差異性的產品。我們致力為客戶提供優質的產品與服務，幫助客戶在國際市場上取得佳績。

In 1998, Shang Kai Steel began its transformation journey, shifting from OEM and ODM contract manufacturing to OBM, to better meet the changing needs of its customers. In recent years, the company has placed a strong emphasis on service and data analysis, actively promoting factory automation and computerized management, and transitioning from Industry 2.0 to Industry 4.0. The company has developed products with high added value and high-end differentiation. We are dedicated to providing our customers with high-quality products and services, helping them achieve success in the international market.

經過三十多年的發展，上鎧鋼鐵的目標是「站穩台灣，深耕亞洲，放眼全球！成為高端客戶唯一指定的金屬擴張網供應商」。作為台灣產業用金屬擴張網的領導廠商，上鎧展現出卓越的技術水準，在金屬網產業鏈中扮演著重要的角色。我們將繼續追求「共好、共創、永續」，朝向更高水準的企業發展目標邁進。

After more than 30 years, Shang Kai Steel has established itself as a leading supplier of metal mesh in Taiwan, Asia and the world. The company aims to be the "Top choice for high-end customers as a supplier of Expanded metal mesh". As a leader in Taiwan's metal mesh industry, Shang Kai Steel has demonstrated its expertise and commitment to excellence. The company will continue to pursue its goal of "mutual benefit, co-creation and sustainability" and strive for even greater success in the future.

LRQA

Certificate of Approval

This is to certify that the Management System of

SHANG KAI STEEL CO., LTD.

No. 16, Aiguang 2nd St, Dalian Dist., Kaohsiung City 831126, Taiwan

has been approved by LRQA to the following standards

ISO 9001:2015

Approval number(s): ISO 9001 – 20036541

The scope of this approval is applicable to:

Manufacturing and sale of expanded mesh and metal belt.

Luis Costa

Area Operations Manager - North Asia & SAMEA

Issued by: LRQA Limited

IAF UKAS

LRQA Group Limited, its affiliates and subsidiaries and their respective officers, employees or agents are, as to the maximum extent permitted by law, without liability to any person or organisation for any loss, damage or expense howsoever caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant LRQA entity for the purpose of the information or advice being relied upon and to that person's exclusive liability. This certificate is issued by, and remains the property of, the LRQA entity with which the client has contracted. Its validity is subject to the client's adherence to the contract terms and conditions. Any unauthorised alteration, forgery or falsification of the content or appearance of this certificate is unlawful and offenders may be prosecuted to the fullest extent of the law.

金屬擴張網

Expanded Metal

金屬擴張網是將金屬板材經由橫切和拉伸擴展，所形成規則相同的菱形網狀結構，使其具有較高的抗拉強度。由於可生產不同的金屬材質及材料耐候性高、表面處理多樣化、成品網面平整、孔徑均勻等特點，上鎧鋼鐵的擴張網能夠在各個產業中更被廣泛地使用。而現在我們對擴張網有了全新的定義，即『穩固安全』、『過濾通透』、『綠化節能』和『變化彈性』。和以往所不同的是，我們對於原料、製作環節和細節上的執著與追求，上鎧鋼鐵所生產的擴張網具有豐富的立體視覺效果，可以塑造出穿透性的美感，提升各產業產品的質感和價值，使金屬擴張網成為越來越多產業的選擇。

上鎧鋼鐵
SHANG KAI STEEL

Expanded metal is a type of metal mesh that is made by cutting and stretching metal plates to form a regular pattern of holes. Its diamond-shaped structure gives it high tensile strength. Because of the weather resistance of different metal materials, the surface treatment is diverse, the net surface is smooth, the aperture is uniform and other characteristics, the Shang Kai Steel expanded metal can be more widely used in various industries. Nowadays, we have a new understanding of expanded metal, that is "stable and safe," "filter and transparent," "green and energy-saving," and "changeable and elastic." Different from the past, We are persistent in the material, production process, and details, and the Shang Kai Steel expanded metal has a rich three-dimensional visual effect, can shape the permeable beauty, enhance the quality of various industrial products, and make the expanded metal a more and more popular choice in various industries.

本公司亦可製造上述標準以外的產品，如有需要，請與我們聯繫。
Our company is also capable of manufacturing products beyond the mentioned specifications. If needed, please feel free to contact us.

擴張網介紹

- SW: 菱形短邊尺寸中心之間的距離。
- LW: 菱形長邊尺寸中心之間的距離。
- LWM: 寬度 (對應菱形長邊方向)。
- SWM: 長度 (對應菱形短邊方向)。
- 厚度 : 原料厚度。
- 總高度 : 網格總高度通常是材料厚度測量值的 1-2.5 倍。
- 網條 : 是菱形邊長之寬度。
- 所有厚度、網條重量均存在 +/-10% 的公差。
- 標準尺寸 : 915 x 1830 (LWM x SWM)、
  1220 x 2440(LWM x SWM)、
  1525 x 3050 (LWMXSWM)。

材料

鋼鐵、不銹鋼、鋁、鍍鋅鋼板、電氣鍍鋅鋼板、銅、鈦、鎳、銀、金。

表面處理

熱浸鍍鋅、粉體塗裝、陽極處理、氟碳烤漆。

Expanded Metal Technical Specifications

- SW: Short way Dimension of mesh.
  (Distance between centers in direction of short mesh)
- LW: Long way Dimension of mesh.
  (Distance between centers in direction of long mesh)
- LWM: Length (Long Way direction of the diamond)
- SWM: Width (Short direction of the diamond)
- Thickness: Material Thickness.
- Overall Thickness: The Overall Thickness can be as much as 1-2.5x the measurement of material thickens.
- Strand/Width: The width of diamond shape on each slice.
- All thickness, strand width and weight are subject to +/-10% tolerance.
- Standard sheet is 915 x 1830 (LWM x SWM)、
  1220 x 2440 (LWM x SWM)、
  1525 x 3050 (LWMXSWM).

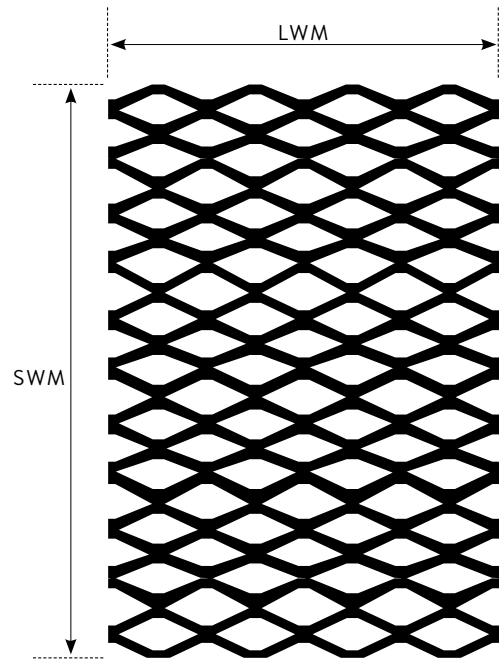

Material

Mild steel、Stainless steel、Aluminium、Pre-galvanized steel、Electrical Galvanized Steel、Copper、Titanium、Nickel、Silver、Gold

Surface treatment

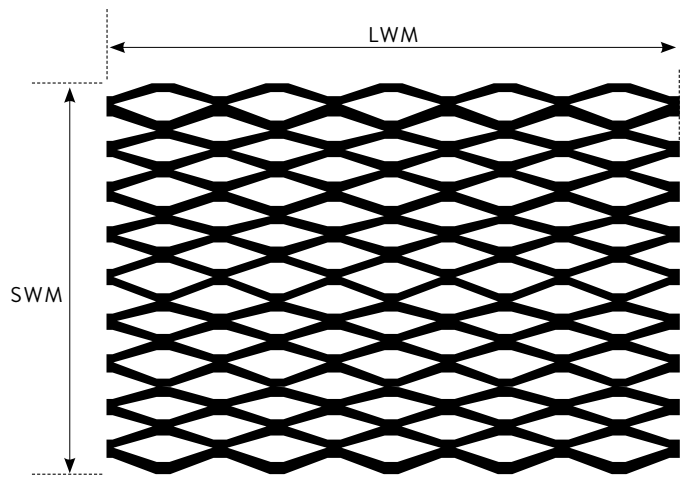

Hot-dip Galvanizing、Powder coating、Anodizing treatment、Fluorocarbon coating

上鎧鋼鐵 SHANG KAI STEEL

標準尺寸 Standard sheet
2440 x 1220 (LWM x SWM)
3050 x 1525 (LWM x SWM)

穩固安全

金屬板經由等距拉撐形成擴張網，其扎實的力學載重結構，即使網目變形、破壞或被剪斷，依舊強穩堅固。相較於其他網材，金屬擴張網更可提供表面止滑的優勢，並可與非金屬材質契合，如：玻璃、混泥土、塑 膠 .....，以強化工程結構耐性、安全性與外觀完整性。

Durability and Safety

Expanded metal is made by uniformly piercing and stretching a single piece of metal, retaining its structural integrity that can withstand breakage and damage. The grating produced by our manufacturing process gives the surface of expanded metal better grip. This property is ideal for anti-slip walkways. By combining expanded metal with glass, concrete or plastic can create a stronger structure.

表面處理

擴張網的材質豐富多樣，金屬類如：鋼鐵、不銹鋼、鋁、鈦、鎳、銅 .....，非金屬類如：紙、 .....。因應材質特性有多種表面加工法可供選擇，如：熱浸鍍鋅、金屬電鍍、液體塗裝、烤漆處理或塑膠被覆等。經表面加工處理後的擴張網更經久耐用，具抗腐蝕性，搭配豐富的色彩選擇，使擴張網應用變化無窮、想像無限！

Coating and Color

Expanded metal can be made from various metal materials, such as steel, stainless steel, aluminum, titanium, nickel, and copper as well as nonmetal materials, such as paper, etc. All these possible materials comes a number of ways to coat the surface, such as, galvanizing, anodizing aluminum, positive electrode, PVC metallic coating, powder coating, and liquid coating. With the coating process, the material becomes more durable and resistant to corrosion. The surface can also be presented in a spectrum of colors, adding to its usability and ability to realize the client's imagination.

上鎧鋼鐵 SHANG KAI STEEL

過濾通透

金屬擴張網的孔狀結構，在通透性上提供最佳優勢。不同尺寸的擴張網可應用於各領域：安全護欄與建築圍欄可保護隱私、減少陽光直接照射；架設於機場跑道兩旁整齊劃一的擴張網，可引導飛機起飛時所造成的混亂氣流。此外，孔洞細密精緻的擴張網可應用於雜質過濾器內，經由電化學原理或結合其他材料形成耐用與穩定性高的理想過濾網。

Permeability and Filtration

The diamond-shaped apertures in expanded metal can yield different levels of permeability depending on their size. It can provide privacy and diffuse light while still letting in air. The expanded metal which utilized on airport runways can safely disperse the airflow because of its air filtering effects. On a smaller scale, expanded metal becomes a fine mesh that can filter impurities through electrochemical filtration or in combination with other materials. Its durability and metallic properties make it an ideal filter.

上鎧鋼鐵 SHANG KAI STEEL

變化彈性

運用擴張網勻稱的孔洞，搭配不同金屬的特性，擴張網目可無限連續拼接、彎曲各種角度。由於拼接大範圍、彎曲角度需要產品高度一致性，上鎧鋼鐵毫不妥協地提供幾近零誤差金屬擴張網，配合建築師、設計師盡情揮灑創意。

Versatility and Flexibility

Expanded metal is capable of covering areas small and large, straight and curved. The static pattern, coupled with the characteristics of different types of metal, resulting in a seamless appearance. Expanded metal can adapt to the clients' needs, in terms of various functions or designs. To guarantee a perfect fit, the cut of the metal must be consistently precise. Shang Kai Steel employs the highest standards in manufacturing products to make sure we stand out from the rest.

綠化節能

使用鋁製寬網目之擴張網於建築空間，網面傾斜角度可阻擋陽光直接照射，減少建築內部日照輻射，降低溫度。除了節省能源外，經過測試可讓藤蔓植物攀爬其上淨化空氣，美化建築外觀；更因擴張網於生產過程無廢料產生，使其成爲綠建築指標建材。

Eco-friendly and Energy Saving

Expanded metal is manufactured in an environmentally conscious way, using the entirety of the material to ensure nothing is wasted. Wide-strand expanded metal can be used in architecture to filter sunlight in specific angles and patterns to reduce solar radiation entering the building. It acts as both a barrier and insulator and saves energy by maintaining the interior temperature. It is also an excellent structure for vines and other climbing plants to grow on. These qualities make the expanded metal an excellent material in the construction of green buildings.

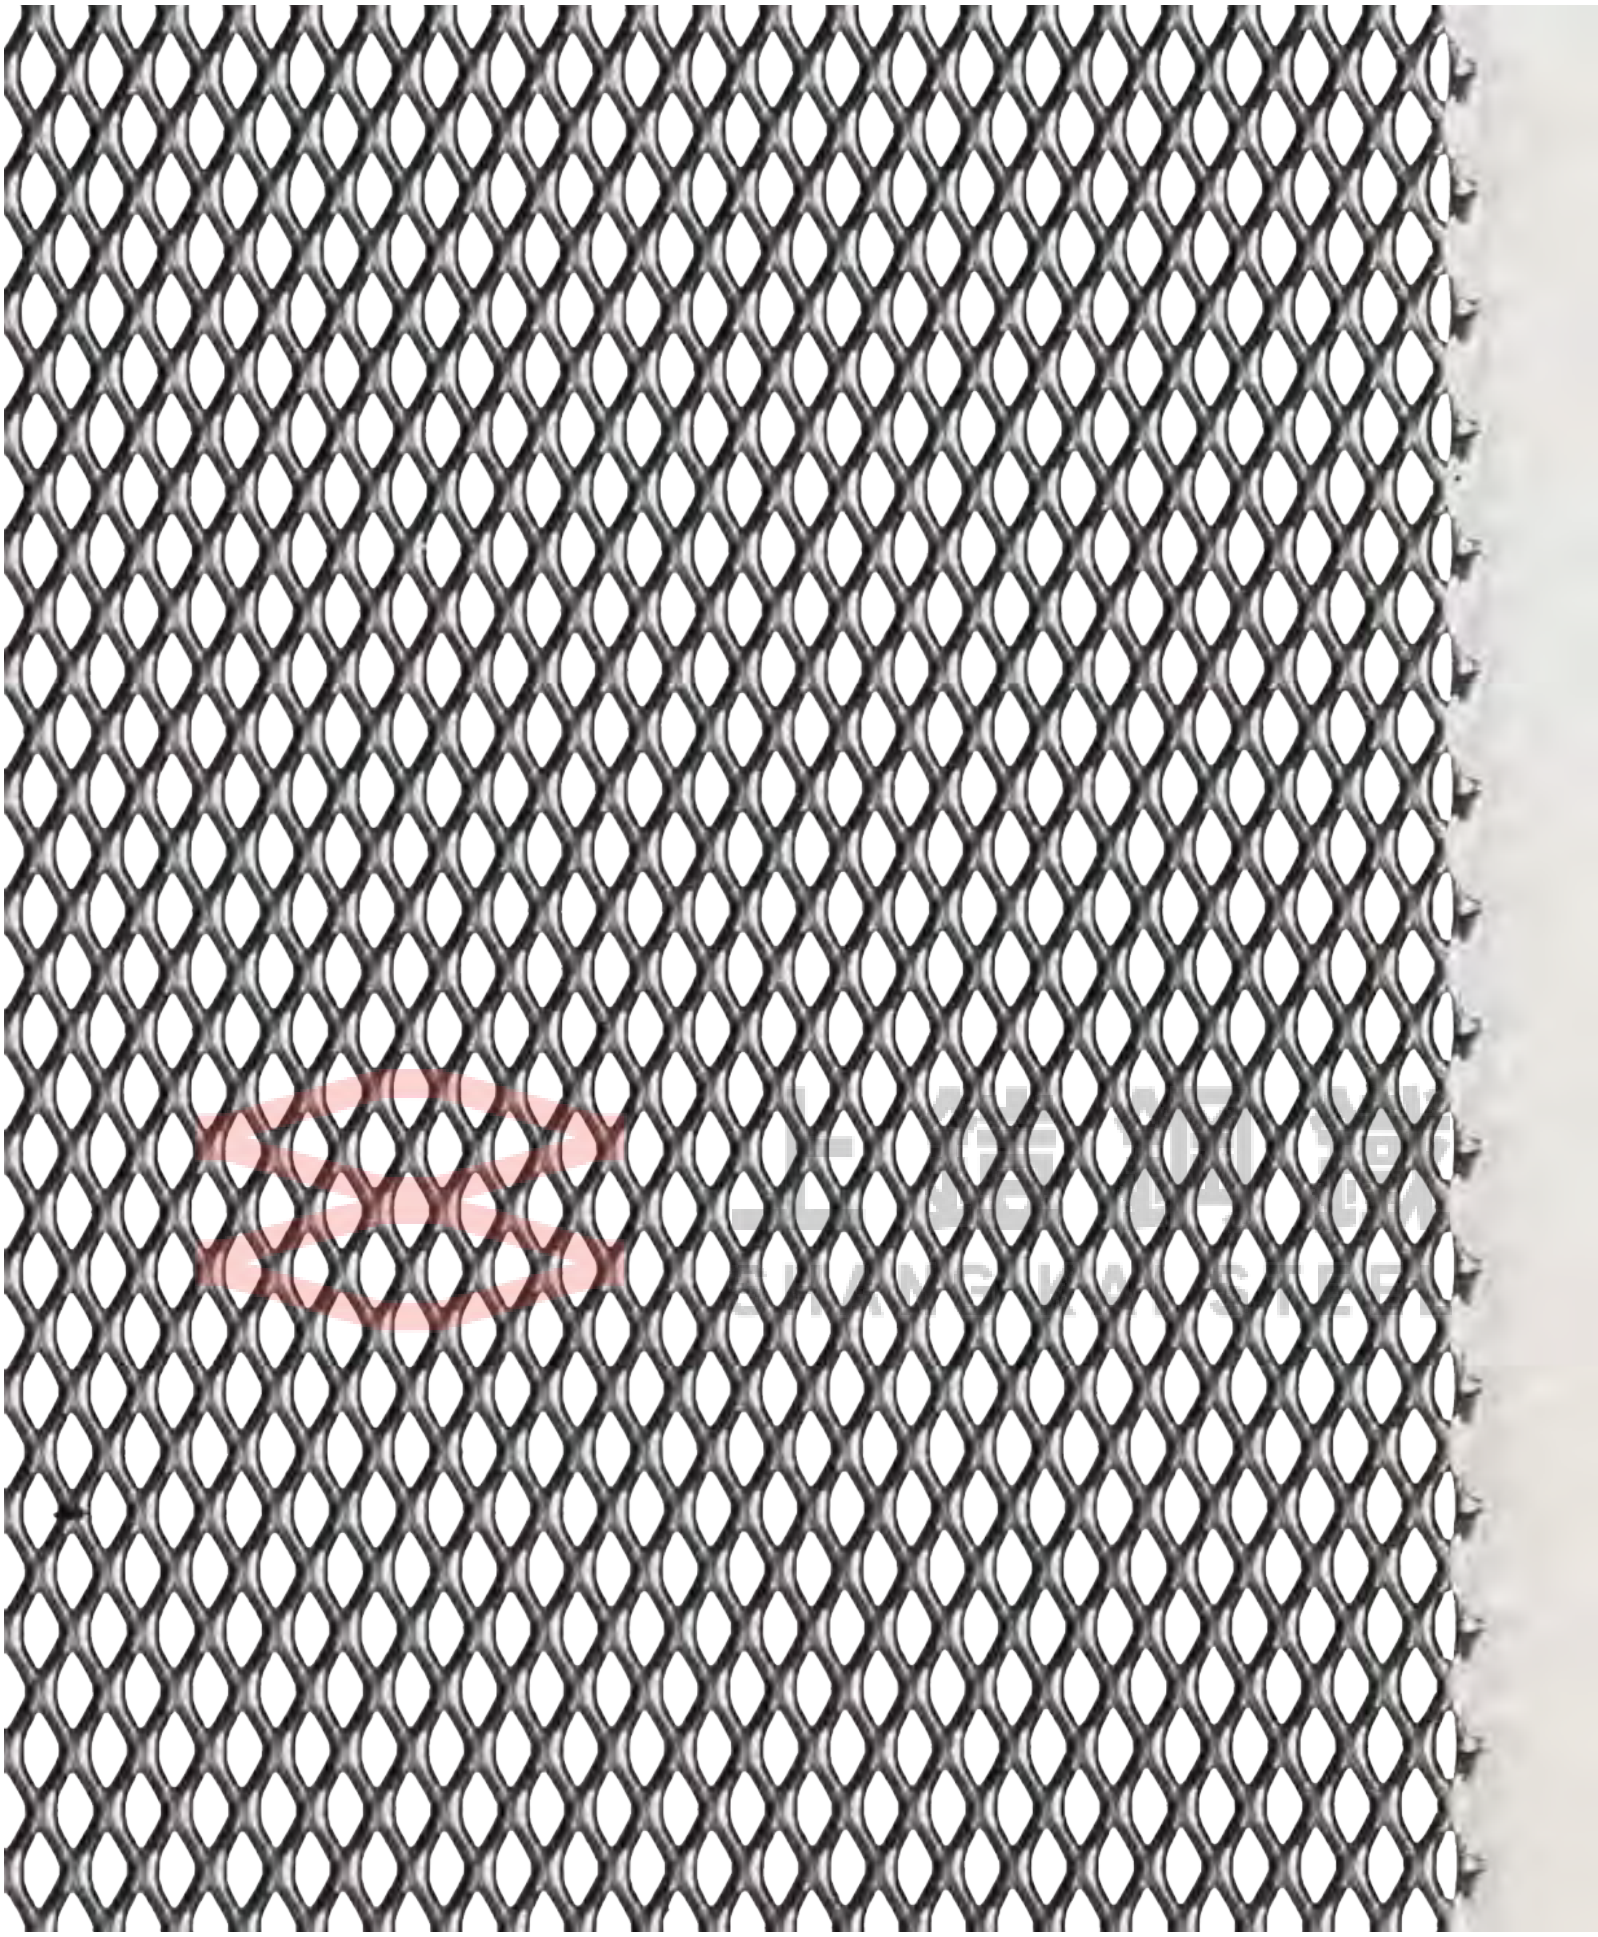

留邊型網

Wing Type

留邊型網面由金屬板和網格相結合製成，可根據客戶需求調整網格尺寸和選擇雙側或間隔留邊交錯方式。現今，此型號廣泛應用於工業設計產品中，例如留邊部分可摺疊成型，透過強化銜接面的雙倍厚度，使運作於電池內部的離子作用介面產生電能，延長使用壽命。

Shang Kai Steel is a pioneer in the Wing Type expanded metal. This type allows certain sections of the metal to remain unexpanded, and the dimension of these sections can be customized according to the client's needs. The unexpanded borders can be welded or molded into the desired shape for optimal application. This innovation has been widely adopted in various industries, such as architecture, construction, and interior design, to create unique and functional designs. Shang Kai Steel's Wing Type expanded metal offers flexibility and versatility in design, providing solutions for various architectural and engineering challenges.
